## Religion and Science: Pathways to Truth

For adults and youth

Meets in room 7

This series deals with the question, "Must we reject belief in God to accept the findings of science?" Each week's DVD presents noted scientists and theologians who consider how religion and science might coexist and even complement one another in the 21<sup>st</sup> century. This summer-long celebration will include Bible stories, games, crafts, music, and of course, food! We begin with a mini-celebration. In the weeks that follow, we'll discover how Jesus is our Friend, our Life, our Leader, our Savior and our Helper.

Our summer mission project will be to complete a knotted blanket each Sunday: our way of blanketing a small part of God's world with Jesus' love.
